Mrs. Rose Cinefra of Monessen Fires a Bullet Through Her Right Lung At Her Home At 11:30 O'Clock Last Night

IS FOUND BY NEIGHBORS

Writes Note In Which She States That She Is Sorry For Her Husband And Baby, And Asks That Child Be Given To "Frances"—Absolves Husband

Mrs. Rose Cinefra, aged 20 years, wife of James Cinefra of 626 Summit avenue, Monessen, shot and perhaps fatally injured herself at 11:30 o'clock last night. Mrs. Cinefra, who, together with her husband and one-year old child, occupied the second floor of their Summit avenue house, was alone in the residence at the time of the shooting, her husband, having gone to visit with Mrs. Cinefra's parents, who reside a short distance from the Cinefra home. The family residing on first floor of the house, hearing the report, rushed to the second floor and found the woman lying at the top of the stairs, still conscious, with a smoking 32 caliber revolver at her side. The woman had fired the bullet into her right lung, and which passed directly through her body, coming out her back. When asked why she had committed the rash act, she said she had no reason and she didn't want the blame placed upon her husband. A note which the woman had undoubtedly scribbled in haste before attempting to take her life, was found lying on a table. The note was badly written on both sides and required some time to make out the characters. She had written that she was sorry for her husband and her baby and asked that the child be given to a woman by the name of "Frances." The police were notified, they in turn calling in a physician who ordered the woman to the hospital. She was immediately taken to the Memorial hospital, Monongahela, where she now lies in a serious condition.

FIRST TRIPLE EXECUTION IN STATE OF KENTUCKY

Eddyville, Ky., May 9.—Three men were electrocuted here today in the first triple execution ever staged in Kentucky. Frank Thomas, 71, whose case was taken to the supreme court to save him from the chair, was the first to die. Thomas was convicted of the murder of Lee Arbogast, in Louisville.

Charles Miller, a negro slayer of two railroad guards, was the second to go to the chair, followed by George Weick, Louisville, convicted of the murder of William Oakle.

CALL FOR MEETING COUNTY COMMITTEE

C. E. Corothers, chairman of the Republican county committee of Washington county has issued a call for the organization meeting of the newly-elected committee to be held in the public meeting room of the court house on Monday morning, May 19, at 11 o'clock. The principal business of the meeting will be the election of a county chairman, and vice chairman, who shall be a woman, to serve for two years. The secretary, assistant secretary and treasurer of the committee will be appointed by the county chairman.

REV. MANN WILL GIVE AN IMPORTANT RITE

Sunday, May 11, at 2:30 o'clock the Right Rev. Alexaneir Mann, D. D., Bishop of the Pittsburgh diocese, will preach and administer the Rite of Confirmation in the Trinity Episcopal church, Monessen. A large number of Charleroi members will leave on the 2 o'clock car for that city to attend the service.

Over A Hundred Loads Gathered In "Clean-Up" Day

Health Officer William M. Darby reported yesterday afternoon that the health department is highly pleased with the cooperation on the part of the people of the borough in "Clean-Up" week, stating that the department is having little or no trouble with the people and business houses of the town in this important regard. Up until noon yesterday 140 loads or refuse had been removed. Mr. Darby is of the opinion that the Pennsylvania Railroad company is entitled to credit in the clearing up of its yards and premises in the borough limits; and taken altogether Charleroi is having its "face washed" as never before in the history of the borough.

MAN MOLESTS A WOMAN

John Roflin, 28 years old, a Greek, of Monessen, was arrested here yesterday afternoon at 3:30 by Officer Jack Thomas. Thomas claims that Roflin was molesting a Bentley woman, a married lady, by following her from one store to another. Roflin is said to be a single man. He left a forfeit for his appearance before Burgess J. Bryant Tuesday next Monday night in the sum of \$20. Officer Thomas noticed an individual disturbing a woman, evidently to her discomfort, and placed Roflin under arrest as a suspicious person.

Corothers, chairman of the Republican county committee of Washington county has issued a call for the organization meeting of the newly-elected committee to be held in the public meeting room of the court house on Monday morning, May 19, at 11 o'clock. The principal business of the meeting will be the election of a county chairman, and vice chairman, who shall be a woman, to serve for two years. The secretary, assistant secretary and treasurer of the committee will be appointed by the county chairman.

Pittsburgh, May 9.—A strike of 3,200 motormen and conductors of the Pittsburgh Railways company will be effective tonight, John L. Neison, spokesman for the local carmen notified Mayor Magee this afternoon at 3 o'clock. The

BULLETIN.
The 3,200 conductors and motormen early today completed taking a vote, which almost unanimously backed their representatives in the stand taken by the union. Officials of the trolley company stood "pat" on their contention that there remains no basis for further negotiation unless the employees change their attitude toward a wage increase. Arthur W. Thompson, president of the Railways company, today said that the conductors and motormen flatly rejected three offers which were proposed to prevent a strike. 1. A continuance of the present contract with a provision that on thirty days notice either side could ask for a conference for revision of the contract.

Pittsburgh, May 9.—A new effort to avert a trolley strike here, scheduled for midnight tonight, was being made by Mayor Magee today. Negotiations between officials of the Pittsburgh Railways Company and representatives of the street car men ended last night after a series of meetings between the two factions, extending over a period of ten days, failed to bring about an agreement on their differences.

Faithful Service Brings Reward To An Educator

Charleroi Board of Education convened Tuesday evening at the High School auditorium for the purpose of electing a High School principal and High school teachers for the ensuing year, completing its work last night. Dr. C. Bauncey C. Lively was re-elected as principal and will begin his seventh year next fall. All the present employees were re-elected who applied. Prof. Earl A. Braman is to continue as music supervisor. Steven Stepanian was elected as coach and athletic director, and Mrs. Edith Pleisold was named as physical director for the grades, and also the High school. There were 22 teachers elected, inclusive of the special pedagogues.

TALKS OF VALLEY 50 YEARS AGO

The talk on the "Monongahela Valley 50 Years Ago," by Jack N. O'Neil last night at the regular meeting of the Men's Social Union of St. Mary's Episcopal church was full of reminiscences of the good old times, and was highly enjoyed by all those who had the pleasure of hearing it. The program was supplemented by a solo given by Orman Morgan, who responded to several queries, Miss L. Audrey Michener playing his accompaniment; and a number of readings by Walter T. Bromwich, which were well received. Walter H. Fielding, chairman of the entertainment committee, announced the participants, and held the chair until Mr. O'Neil as president, took charge during the business meeting. At the close of this session, refreshments were served.

NO BALL GAME FOR TODAY

For the second time rain has interfered with the opening of the baseball season, the game being scheduled today between the Homestead C. M. C. and the Charleroi Independents being called off after an inspection of the grounds this morning by Manager D. Cleve Mathers and George W. Light, one of the directors of the Charleroi Athletic association, who

It is probable that the opening will be had some day next week, due to the fact of which will be made in the Mail.

BAKE SALE.

cars on the street at midnight will be run into the barns and the men will quit work. Superintendent of Police Brophy issued orders cancelling all leaves of absence of policemen on account of the emergency.

The 3,200 conductors and motormen early today completed taking a vote, which almost unanimously backed their representatives in the stand taken by the union. Officials of the trolley company stood "pat" on their contention that there remains no basis for further negotiation unless the employees change their attitude toward a wage increase. Arthur W. Thompson, president of the Railways company, today said that the conductors and motormen flatly rejected three offers which were proposed to prevent a strike. 1. A continuance of the present contract with a provision that on thirty days notice either side could ask for a conference for revision of the contract.

Sparks Circus To Come To The Boro Tomorrow

Sparks circus is to come to town tomorrow; the day of all days for the small boy, and dad and mother will also be on the streets to watch the procession and look with wonderment on many stupendous attractions to be seen in the pageant.

The circus will pitch its tents at the ball ground, and Second street, where the park is located, will be the scene of all eyes from early morning until late at night.

The following is the program for the day:
8 a. m.—Sparks Circus trains due to arrive from New Kensington on the Pennsylvania railroad.
8:30 a. m.—Unloading and removal of tents, paraphernalia, wagons, animals, etc. to the circus grounds.
7:30 a. m.—Erecting kitchen, dining, dressing menagerie, blacksmith and horse tents.
8 a. m.—Breakfast served to the 700 circus employees.
8:30 a. m.—Hoisting of mammoth white top in which main performances take place, a lesson in practical efficiency. Side show erected.

BOYS PARADE MAIN STREETS

Two thousand boys paraded the streets of Monongahela last night as a part of the Boys' Week being conducted in that city. Led by the Elks band of Monongahela, the boys paraded all the principal streets of Monongahela and made a good impression on the citizens.

The parade ended at the Central school building, where Chairman Claude E. Towner and his assistants served each boy with a liberal portion of sandwiches and ice cream. Souvenirs were given each boy. Participating in the parade were the otary troop of Boy Scouts, Presbyterian troop of Boy Scouts, Methodist Episcopal troop of Boy Scouts, Elks troop of Boy Scouts, Waverly school, New Eagle school and Hazel Park school.

The largest number of boys were in the Lincoln school group and the Rotary troop had the largest number of boys in the line. In addition to the Elks band music was furnished by the Monongahela High school band. At a meeting at the Central school building the distribution of the nourishment plans were made for the athletic day which will be held today in charge of Chairman C. C. Yohe.

BELIEVE MURDERED MAN IS OF MEADVILLE

Meadville, May 9.—The man brutally murdered a week ago near Greenville, is believed to have been Joseph Marne, alias Annie Barber, who is serving a sentence in the Crawford County Jail for bootlegging today established the identity of the man by means of three trunk keys, a ring, fragments of a shirt and a cap. Those possessions of the murdered man were found in the ruins of a barn where the body had been secreted and burned in an effort to destroy all identity.

Officers Catch Five Men In the Act of Loading 22 Barrels of "Good Stuff" Into a Freight Car Yesterday Morning

GIVE BAIL FOR COURT

Raid Made at the Crescent Brewery—Analysis Proves It to Be Real Beer — Fluid Which Had Not Gone Through the De-Alcoholizing Process

People of the county seat are shocked at the discovery that real, "honest-to-goodness" beer was being manufactured on a wholesale scale within the city limits yesterday morning, when Sergeant E. T. Cohee, of the state police, and County Detective D. W. Craig, made a raid at the Crescent brewery in Washington and caught five men in the act of loading 22 barrels of beer into a freight car. The men arrested were taken before Alderman John F. Carmichael of Washington. They waived a hearing and were held for court, furnishing their bail in the sum of \$500 each. Their attorney was I. W. Baum. The charge is violating the liquor laws. A similar information has been made against the Crescent Brewing company. In the meantime the plant has been seized by the county authorities and a guard placed there, pending the disposition of charges against the (Continued on Page Two)

POLICE PUZZLED AS TO DIVISION OF REWARDS

Philadelphia, May 9.—With Mrs. Mary Demarco, kidnaper of Corina Modell, safely in prison and awaiting trial, hostility and resentment flared up here today among seven rivals for rewards offered for the baby's return. There is \$3,000 to be distributed among those who gave material aid to the police, but just who is entitled to it is puzzling police.

Mrs. Lena Churchill, who gave the police Mrs. Demarco's address and led them to the house, is claiming the entire reward. She is being opposed by six others who assert they played important parts in the case and are entitled to portions of the money. Mrs. Demarco will go on trial May 19, following indictment by the grand jury. The latter action is expected to take place Monday.

FLOOD WATERS TAKE THE LIVES OF SIX

MINERS LOCKED OUT OR ON A STRIKE

Berlin, May 9.—Separatists, as well as communists, are trying desperately to take advantage of the situation in the Ruhr, where 300,000 miners are locked out or on strike.

A separatist plot was unearthed today which provided for formation of the Ruhr economic state. Documents revealing the plot showed that the Separatist plan embodied occupation of the mines, the products of which could then be devoted to reparations, but not wholly at the miners' expense. It was proposed to start negotiations with France, Belgium and Great Britain in the name of the Ruhr state once the occupation was effected. The workers would also have the eight-hour day upon which they have insisted. Meanwhile the strikes and lockouts continue, with increasing prospects of a sympathy strike in Saxony. The German government is willing to try to settle the Ruhr economic questions, but shies at intervention, due to the political aspect of the lockouts.

TAG DAY IS HERE ON TOMORROW

Under the auspices of the Ladies' Auxiliary of the Charleroi-Monessen hospital, tag day will be held tomorrow, the business streets of the borough to be traversed. As in the past, the public will respond in a motive so worthy.

FLOOD WATERS TAKE THE LIVES OF SIX

Baltimore, May 9.—Flood waters sweeping sections of western Maryland have taken the toll of six lives, according to dispatches reaching here from Hagerstown and Cumberland today.

The dead are William Miller, his wife and four children. They were drowned in Bear Creek, near North Mountain, when a small automobile in which they were riding plunged through the bridge that had been flood-swept. One of Miller's sons, the only member of the family alive, who was not in the automobile, aided the searchers in rescuing the bodies along the banks of the creek.

GOODMAN PROTESTS IN AWARD AS MADE

Paris, May 9.—Sam Goodman, man which is here to participate in the Olympic games, today protested vigorously against the action of the Olympic committee in granting a monopoly on motion picture and photographic rights for the games in favor of a French firm.

SWEEPSTAKES AT THE NEMAGOLIN CLUB TO OPEN THE COURSE

Formal opening of the course of the Nemagolin Country club, at Beallsville today, when the permanent greens will be presented for play and the opening play in the form of sweepstakes, was to be put on this afternoon. The course is in excellent condition for so early in the season, and a full program of events, including a number of tournaments with outside clubs is being arranged.

Considerable work has been done to the course during the winter and spring and the fairways and greens are in better shape than they have ever been. Work is progressing on the course to be ready for occupancy by the latter part of the summer.

The various committees which will have charge of the club activities the coming season have just been named as follows:

Golf—George J. Edel, Brownsville, chairman; Edwin B. Lou, Charleroi, L. V. Martindell, Deemston; Dr. A. V. Lewis, Washington; T. H. Thompson, Brownsville.

Tennis—J. N. O'Neil, Jr., Washington, chairman; Herbert Hertzog, Bentleyville; Howard F. Taylor, Brownsville.

Handicap—Charles L. Crawford, Washington, chairman; D. A. Thalmmer, Washington; J. H. Claybaugh, Charleroi; T. B. Semans, Umontown; Dr. L. S. Irwin, Washington.

House—Dr. M. F. Manning, Beallsville, chairman; R. H. Rush, Charleroi; Harry R. Brenner, Bentleyville.

Tournament—Charles E. MacGinnis, Washington, chairman; H. F. Clark, Belle Vernon; James Craft, Brownsville; R. S. Coyle, Charleroi.

Ladies' Golf—Mrs. George W. Dawson, Charleroi, chairman; Mrs. Thos. A. Wagner, West Brownsville. Mrs. David W. Craft, Washington.

Board of Governors—Kerfoot W. Daly, Charleroi, president; Harry R. Brenner, Bentleyville; Lee M. Crowthers, Fredericktown; James S. Craft, Brownsville; L. McK. Crumrine, Washington; George J. Edel, Brownsville; C. E. Frazier, Washington; Jess P. Miller, Beallsville; H. F. Clark, Belle Vernon; Dr. J. W. McKennan, Washington; R. H. Rush, Charleroi; W. C. Sutherland, Charleroi; James R. Taylor, Brownsville; J. Olan Yarnall, California; B. F. Mevay, Jr., Washington.

THE TROOPS ARE

GATHERING ON

RUSSIAN FRONTIER

London, May 8.—Russian troops are concentrating on the Bessarabian frontier and throwing up fortifications along the Dniester, while the Rumanian population flees southward, panicky, according to the Paris correspondent of the London Daily Express today, who alleges confirmation of his dispatch has been obtained from Sofia.

There is no confirmation of the report from official sources.

SACKVILLE WINS

OVER CHARLEROI—

LATRIAM WEAKENS

Waynesburg, May 8.—Setting their bats to work when a faint odor of defeat came their way, the Sackville Stogies came from behind here tonight and defeated Charleroi 5-3. Stogies were trailing, 3-1, until the sixth when they pounced on Latriam, Charleroi hurler for six hits, including a double and a triple, and sent six runs scurrying across the plate.

Latriam was relieved after that onslaught, but the damage had been done.

Joe Semmler did the mound work for the Stogies and did it well. He handed out six scattered hits. Latriam held the Stogies well in hand until that fatal sixth, allowing only two runs in the first five innings.

Score: SACKVILLE R H P A E

BEN ALEXANDER

IN "BOY OF MINE"

"Boy of Mine," produced by J. K. McDonald for First National, is from the pen of Booth Tarkington and enters about a child, and while it is highly amusing to children, it is of more appeal to adults. It is a human interest drama with a range of appeal that covers picture-goers of all ages. Tarkington has so cleverly built the story that children can focus eyes and thoughts on the actions of the juvenile and adults can look upon the child artists as merely incidental to the building of a great plot.

Ben Alexander, who played the role of "Penrod" in "Penrod and Sam," is seen as "Bill Latimer," a typical American small-town boy. Reggie Fellowes, who was Ben's stern father in "Penrod and Sam," is seen in the antithesis of that type. This time he is a lover of children and a man who understands them.

"Boy of Mine" is interpreted by an all-star cast which includes Henry B. Walthall, Irene Rich, Rockiffie Fellowes, Ben Alexander, Dot Farley and Lawrence Licalz. It was directed by William Baudine. The picture will be seen at the Majestic next Monday and Tuesday.

VESSEL ON FIRE

BUT NOT THOUGHT

IN GREAT DANGER

New York, May 8.—The Merchants and Miners' liner Ontario is racing into the port of Boston with a fire in her hold, according to radio advices here early today.

The fire is under control, the latest radios said, and it is not believed the vessel is in great danger.

The first SOS call shortly after 1 a. m., indicated possibility of a grave disaster, saying the ship was on fire in a heavy fog off Block Island, and several vessels rushed to her assistance. Later, however, the ship sent out a general signal that the flames were under control and that she would proceed on her regular course to Boston, where she is due today.

The Ontario plies between Baltimore, Norfolk and Boston.

READ THE CLASSIFIED COLUMNS—IT PAYS!

REAL BEER BEING

MADE, COUNTY SEAT

(Continued from First Page)
company corporation and the employees.

There were seized 22 barrels of beer, which when analyzed yesterday in the laboratory of the Washington hospital by Dr. Ramsey, proved to contain between five and six percent of alcohol, which put it in the real beer class. After consultation with the court, and it being proved it was real beer, District Attorney Howard W. Hughes directed that the beer be dumped. The beer was dumped into the sewer.

The Crescent Brewing company, formerly owned by Washington men, was operated for several years during the days before the 18th amendment, at one time doing a big beer business in Washington and adjoining counties. Prohibition, however, put it out of business, and for many months the place stood idle. Several months ago it was noticed that preparations were being made there to resume operations. The matter seemed to move along quietly, and no one seemed to know just under what right or management the plant was resuming. Inquiry elicited the information that the place and that near-beer was to be made there.

The plant has been operating under a state license and a federal permit, the last being necessary for the purpose of operating what is known as a de-alcoholizing plant. To make near-beer real beer has first to be made and then the alcohol taken from it. Apparently the beer seized yesterday morning had not gone through the de-alcoholizing plant.

In the state treasurer's office at Harrisburg the Crescent brewery appears under no other name than the Crescent Brewing Co. There is nothing to show who the real owners are. Under the law, however, the corporation can be prosecuted and if convicted, of course cannot be put in jail, but can be fined, as was done in the case of the Roth brewery, which formerly operated in Carroll township, and which was seized by the county authorities.

There are two other breweries in the county operating at present—the Acme, at Bentleyville, and the Moose, at Roscoe. They are presumed to be making near-beer.

The investigation as to what was going on at the Crescent plant has been under way for some time, but the state and county authorities, it is said, had no right to go into the plant. Even if they had, they would have found beer, and the excuse could have been made it had not been de-alcoholized. However, in seizing what is being loaded in cars and finding it containing a high percent of alcohol, laid grounds for a prosecution.

QUESTION OF

EXCLUSION UP

AGAIN TODAY

Washington, May 9.—Made a more contentious issue than ever by the unexpected reversal of the conference committee, the question of Japanese exclusion came up again for vote in the House today.

When the immigration bill was before the House not one vote was cast against the Japanese exclusion feature but because of the continued insistence of President Coolidge, Republican leaders in the House today declared they had votes enough to force acceptance of the conference report.

Chairman Johnson, of the immigration committee, announced he would call up the report, which postpones the exclusion date to March 1, 1925, immediately after the House convened.

Sparks Circus Will Be in the Borough Tomorrow

(Continued from First Page)

10:30 a. m.—The elaborate street parade will leave the show grounds and proceed to Fallowfield avenue, down Fallowfield to Tenth, down Tenth to McKean, up McKean to Second to the show grounds.

1 p. m.—Doors open for leisurely inspection of menagerie. Band concert 1 to 2.

2 p. m.—Afternoon performance commences.

6 p. m.—Concert of popular and classical music played on the world's largest steam piano, which can be heard for five miles without the use of radiophones.

7 p. m.—Doors again opened to public. Menagerie, band concert 7 to 8.

8 p. m.—Evening performance of the circus, complete in detail.

11 p. m.—Concerted night movement to circus trains.

12 p. m.—Departure of circus trains for Mt. Carmel.

The performance of the Sparks Circus opens with an allegorical num-

ber called "An Egyptian Fantasy." The rhythmic thrill of the music, the gorgeous costumes of the pretty young women and stalwart young men, the glittering trappings and accoutrements of the proud horses and sagacious elephants, hold the spectator entranced as scene after scene of exquisite beauty is presented by this colorful pageant of barbaric splendor, which introduces the Sparks Circus to the audience.

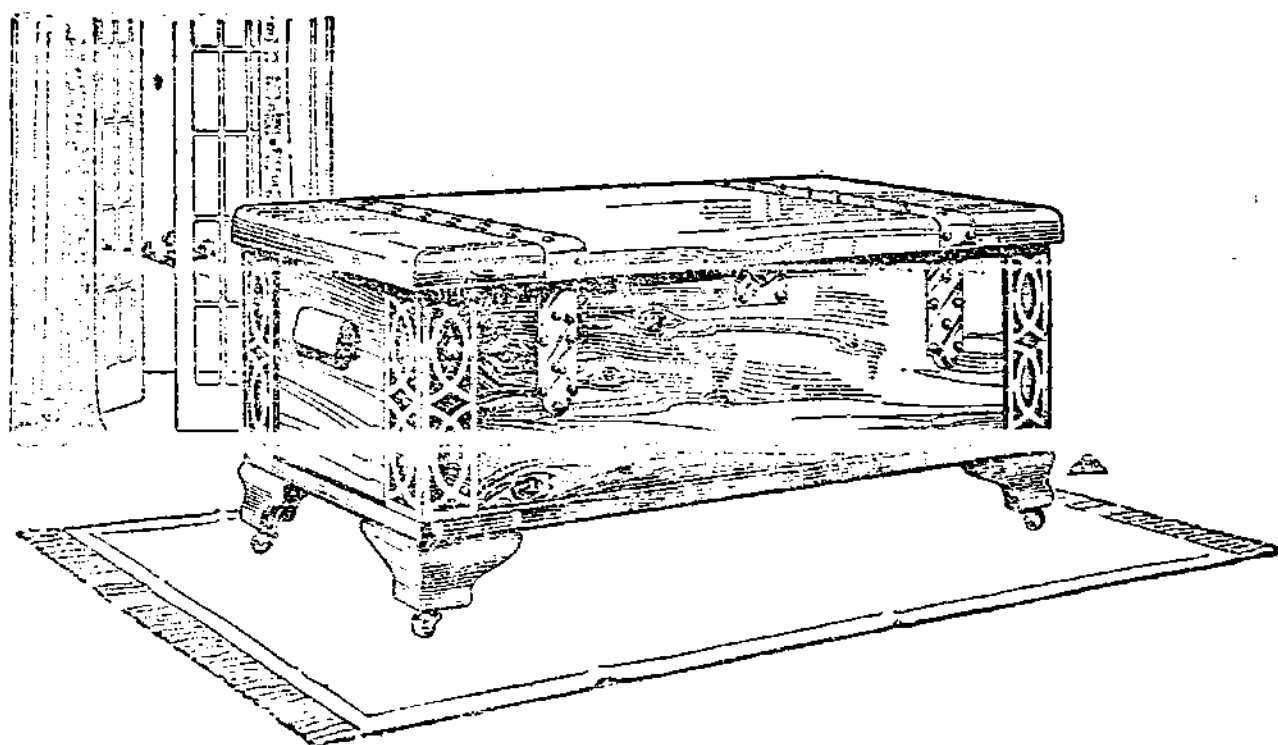

Immediately after the opening number come displays of daring and comedy. There is dainty little Naida Miller, who, on a silver threat in midair, skips about and dances with an east and grace that is delightful to behold; the Three Walters in an aerial bar number that thrills you; the Totsu Brothers in a high next; the feature riding number, presented by the Ballerina troupe and headed by Flora Bedini, in fine equestrian novelties from the Argentine Republic; the song-birds, Bessie Harvey, Lucille Aumann and Hazel Bailey; Franz Woska with his trained bears; Steve Battv with his fighting lions that really fight and make you shiver with their blood-curdling roars; the A dele Nelson groups of acrobats; the trained tigers with their awful "coughing roar;" Frances Widner and Anna Kerry with their trained elephants; Prince Sakato, who slides backwards down a rope while standing upright on it; Florence Harris, world-famed equestrienne star with her English-bred bread and high jumping horses; Prof. Klose's sixteen thoroughbred German horses in the most appealing horse display ever presented, in which these beautiful equine stars execute a series of midair, skips about and dances with drills and formations; without a word of command, that is marvelous; the Mardos in a comedy acrobatic dis-aerial bar number that thrills you; the Totsu Brothers in a high perch number; the high school girls next; the feature riding number, presented by the Ballerina troupe and headed by Flora Bedini, in fine equestrian novelties from the Argentine Republic; the song-birds, Bessie Harvey, Lucille Aumann and Hazel Bailey; Franz Woska with his trained bears; Steve Battv with his fighting lions that really fight and make you shiver with their blood-curdling roars; the A dele Nelson groups of acrobats; the trained tigers with their awful "coughing roar;" Frances Widner and Anna Kerry with their trained elephants; Prince Sakato, who slides backwards down a rope while standing upright on it; Florence Harris, world-famed equestrienne star with her English-bred bread and high jumping horses; Prof. Klose's sixteen thoroughbred German horses in the most appealing horse display ever presented, in which these beautiful equine stars execute a series of midair, skips about and dances with drills and formations; without a word of command, that is marvelous; the Mardos in a comedy acrobatic dis-aerial bar number that thrills you; the Totsu Brothers in a high perch number; the high school girls next; the feature riding number, presented by the Ballerina troupe and headed by Flora Bedini, in fine equestrian novelties from the Argentine Republic; the song-birds, Bessie Harvey, Lucille Aumann and Hazel Bailey; Franz Woska with his trained bears; Steve Battv with his fighting lions that really fight and make you shiver with their blood-curdling roars; the A dele Nelson groups of acrobats; the trained tigers with their awful "coughing roar;" Frances Widner and Anna Kerry with their trained elephants; Prince Sakato, who slides backwards down a rope while standing upright on it; Florence Harris, world-famed equestrienne star with her English-bred bread and high jumping horses; Prof. Klose's sixteen thoroughbred German horses in the most appealing horse display ever presented, in which these beautiful equine stars execute a series of midair, skips about and dances with drills and formations; without a word of command, that is marvelous; the Mardos in a comedy acrobatic dis-aerial bar number that thrills you; the Totsu Brothers in a high perch number; the high school girls next; the feature riding number, presented by the Ballerina troupe and headed by Flora Bedini, in fine equestrian novelties from the Argentine Republic; SENATE TRYING

TO AVERT FARM

BLOC ACTION

Washington, May 9.—Under threat of dire action from the farm bloc, the Senate is hastening to conclude its new tax bill. Both Republican and Democratic leaders hoped that the measure might be finally passed before adjournment tonight.

The farm bloc threatened to introduce farm relief measures as amendments if leaders do not quickly get the tax bill out of the way.

About 20 of the individual amendments remain to be acted upon and then the final flurry will come when some of the provisions already adopted will be rediscussed under

parliamentary requirements.

As the bill stands today it is a complete Democratic measure.

The Democrats re-wrote the bill from start to finish on the floor just as predicted when the measure was reported out of the finance committee with the Mellon rates three weeks ago.

Here are the important features of the measure already agreed on: Normal income tax rates, two percent on \$1,500; four percent on the next \$1,000.

Surplus—ranging from one percent on \$10,000 to forty percent on \$500,000.

Inheritance tax—ranging from 2 percent on \$25,000 to thirty percent on \$5,000,000.

Gifts tax—from one percent on

\$50,000 to forty percent on \$10,000,000.

Corporations tax—nine percent flat tax with an additional levy up to forty percent on big incomes.

Insurance companies flat 12½ percent tax.

Publicity—for returns, appeals and hearings.

Automobiles—three percent on trucks over \$1,200; five percent on pleasure automobiles and 2½ percent on accessories.

Mah Jong—ten percent.

The Senate killed the tax on telephones, radio and capital stock jewelry exemptions were lowered to \$25.

Salaries of the seven members of the

board of tax appeals cut to \$7,500.

The Senate also adopted a provision limiting deductions from non-business losses to less than the amount received as income from tax exempt securities.

ADMINISTRATIVE NOTICE.

Estate of James W. McCamey, late of the Borough of Charleroi, deceased.

Letters of administration in the above estate having been granted to the undersigned, all persons indebted to said estate are requested to make payment, and those having claims to present the same without delay to

Johanna McCamey, Admrx., D. M. McCloskey, Monessen, Pa. Attorney, Charleroi, Pa.

Rats Regarded as Edible Delicacy.

Ripped rats are a standard article of diet in China. Often you can identify them only by the characteristic teeth. Rats were extensively eaten in the siege of Paris. The Souths of Bengal eat them, as do millions of people in East Africa, the Polynesian islands, and elsewhere. During the siege of Kars rats fetched high prices. Spiced rats are eaten in West Indies. When they feed in sugarcane plantations they are found in fine condition. The negroes make them into fricasse. The natives of Brazil like rats; so do the Australian bushmen, who catch them in grass snares. The Chinese love rat soup, and pay as much for it as for ox tail soup. In the picturesque days of '49, the Chinese gold diggers in California ate, as an especial delicacy, a dish of rat brains, with garlic and aromatic seeds.

WHY PEOPLE TRUST COOLIDGE.

Secretary Hughes' "keynote speech" certainly should elicit a harmonious response from the Republican party—and not only from the Republican party, but from the entire country. Mr. Hughes won extremely hearty applause when he said: "The country has no misgivings as it places its trust in the firm and skillful guidance of President Coolidge." It is a clear case. Calvin Coolidge, as Secretary Hughes further said has come very near to being an ideal President, and the people seem to be thoroughly aware of it.

There is no question of apology

He has absolutely nothing to apologize for. Nobody distrusts him and nobody can distrust him. To character he adds sagacity; to sagacity, firmness; to firmness, fearlessness; and to fearlessness, promptness. Character is what is called for in a President at this time, and character is the rock upon which Calvin Coolidge's success has been built. His own uprightness enables him to recognize uprightness in others. He is a good judge of the quality—none better.

And in the light of all "exposures" at Washington, real and pretended, the people will particularly commend and endorse Secretary Hughes when he says, as he did last night: "There is no security for life or liberty or character if the standards of justice are ignored and guilt is assumed before it is established."—Boston Transcript.

THE
OFFICE
CAT

Every day is Decoration Day with the flapper.

"The night has a thousand eyes." Well, that's none too many, considering all that's going on.

Why Was I Born? asks Dr. Frank Crane in one of his modest editorials in a recent issue of the Red Book. We have often wondered about that ourselves. Perhaps the stork had a grudge against the Crane.

ADVERTISING EXTREMES.

(The manufacturer pays half for the epitaph.)

Beneath this stone lies Kaker Coats Who never tasted ———— So here he rots beneath the sod, Cut off at eighty-seven odd.

Here lieth Jane Abigail Clinkham, She had her troubles and couldn't sink 'em.

Though she ardently tried, And took ere she died, Twelve bottles of ————

Note—Until satisfactory arrangements can be made with the manufacturers the names of the various products recommended will be left blank.

Bobbie (aged seven, helping cousin to dress doll)—What goes on next? Cousin—Well, really, Bobbie, I don't think I ought to tell you.

The city man who tries to raise a garden does not wonder why so many farmers become discouraged.

THIS EVENING WE HAVE
WITH US:

Organ Recital—On the "Eyes, Ears and Nose," by Dr. Morse.

Talk by E. A. Plugsmeaking Inspector of New York on Prince Albert's Lucky Strike.

Baseball results round by round by our certified public accountant.

Charlie Chaplin on "How a Pole Struck Me."

Latest styles in winter underwear demonstrated by one who understands ticklish and delicate situations.

A talk on "The American Dough-boy" by the president of the Master Bakers' Association.

Closing stock reports by our cattle and feminine appraisers.

Several solos by the Prince of "Wails" assisted by three counterfeit tenors.

Reveille—Poker—Lights out.

There are some radio singers who can make any popular song unpopular in one evening.

The average jury is like a woman, fickle and irresponsible, with ears closed to reason, moved by the merest trifles, as changeable as a Spring wind which shifts from the south to north in less time than it takes to tell the time.

Man is truly just a worm in the dust. He comes along, wiggles about a while and finally some chicken gets him.

Don't be afraid to LAUGH. LAUGH—it's the greatest expander of Life in the world.

LAUGH when you get up in the morning.

LAUGH when you go to bed at night.

Keep a smile on your face—never let it wear off—you're in danger when you lose it!

Defining the Oyster. Unconscious humor is a brand all its own. In a Nevada town the other day a teacher asked: "What is an oyster?" Sixteen young minds worked on the problem, but Willie beat them to it, announcing his definition triumphantly: "An oyster is a fish built like a nut."

Orion the Storm Maker. In Orion the ancients saw a mighty warrior and hunter, of ill-repute among classic writers, says Nature Magazine. With his appearance they associated the storms which were so prevalent at this time of year and so dangerous to seamen.

Cost of the War. Attempts have been made by a number of statisticians and economists to compute the money cost of the World War. The results arrived at vary. According to the estimates of Professor Bogart, under the auspices of the Carnegie Endowment for International Peace, the direct costs were \$186,235,617,687, and the indirect costs \$131,612,542,560, making a grand total of \$337,948,178,657.

Fighting Fishes. Prize-fighting fishes are very common on the coast of Japan and Siam. Their pugilistic tendencies are most pronounced, so much so that the natives make them take the place of boxers in Siam, and arrange matches in glass bowls between two of the species, heavy bets being laid on the result.

No Kissing in South Seas. Another "close-up" finale is being attacked. The South Sea Islands are often the scene of romantic stories and adventures, but a traveler from there has remarked on the fact that there are no customs there which include kissing among the savages.

Trees of North America. The following are some of the most important trees that are found in their native state only in North America: Hickory, ball cypress, sequoia (both species), yellow poplar, Arizona cypress, white pine, western yellow pine and Douglas fir.

Discovery of X-Rays. The property of X-rays to penetrate solid matter was discovered by accident through leaving a key on top of a desk beneath which photographic plates were kept. When the plates were developed the shadow of the key was seen.

Apes and Rickets. Although mummified apes of ancient Egypt show evidence of rickets, no definite evidence of this disease has yet been found in the numerous human bodies exhumed from ancient graves of that land.

Seaweed as Remedy. Chinese doctors have been successful in curing certain skin diseases with extracts from seaweed. Experiments in this direction are now being carried out in Paris and other European cities.

Marriage in Egypt. In Egypt the ordinary marriage takes place at a very early age. Many of the brides are little more than ten years of age, and few have passed fifteen on their wedding day.

"Scribes" Used to Be Fighters. A scribe was a name used among the Jews originally to indicate a military officer, but later the cognomen was given to those who copied the books of the law.

Afraid of Leather. Mohammedans always look on leather with suspicion as pig's skin. The Koran, therefore, according to the most orthodox directions, is bound in cloth.

Now the Clock's O. K. Again. Clocks do not run faster during the night than the daytime, claims an astronomer, who has a six-inch transit circle with which he tells the accuracy of time.

FRENCH TOWNS LACK PHONES

Many Rural Centers Are Without Them Owing to the Scarcity of Money.

"An American is readily excused if he comments on the inferiority of the French telephonic system, when he compares it with that of his country," declared M. Paul Lafont, French postmaster general, in a recent interview for the New York Herald.

"More than a third of the villages and the smaller towns of France," M. Lafont continued, "cannot be reached by telephone because they have none. Those that have—and quite large towns at that—can be reached only after hours of waiting, and sometimes not at all. With certain cities abroad, such as Vienna and Lisbon, there is no means of getting into communication, because no lines run from them to any town in France."

This condition the postmaster general attributed to lack of funds for telephone development. The government, which owns and operates the telephone system in France, he explained, has had to devote the greater part of its budget since 1871 to "the reconstruction of the devastation of war and defensive preparation against further devastation."

The French government has therefore been able to allot only a small percentage of its total budget for telephone development, and M. Lafont significantly remarked: "In France it must be remembered that there are no private telephone and telegraph companies."

Fish Not Brain Food. It used to be believed that certain foods, especially fish and other foods containing phosphorus, were especially valuable for the gray matter of the brain. This is not believed any more. Brain cells apparently use the same kinds of food materials as all other living cells do. The best way to feed the brain well is to keep the body in good health.

The Nineteenth Hole. At an English inn a group of golf enthusiasts were discussing over the drinks their wonderful performances on the greens that afternoon, when the jolly proprietor said: "I'm sorry, gentlemen, but it's time to put up the shutters, so we'll have to shut up the putters."—Boston Transcript.

Pretty and Beauty. "Pretty is indifferent whether she enters at the eye or at the ear. There is none of the senses at which she does not knock one day or other. The Puritans forgot this, and thrust Beauty out of the meetinghouse and slammed the door in her face."—James Russell Lowell.

Loose Children Purposely. Women of the tenement districts have been known to purposely lose their children in crowds so as to have a holiday and to call at night at the various police stations, knowing their offspring will ultimately be taken there.

Bell-Ringer Loses Job. Notre Dame, the famous cathedral of Paris, is doing away with its woman bell-ringer, and substituting electricity. The cathedral's official bell-ringers for generations have been women of one family.

Woman as Fire Lookout. High on the top of Gold mountain, a peak in southwestern Oregon, Mrs. Charles Crouch has maintained a vigil throughout the last summer season as a fire lookout and has made a success of the job.

Training Children. Those who provide much wealth for their children, but neglect to improve them in virtue, do like those who feed their horses high, but never train them to the manège.—Socrates.

For Home Talent. First Charley—"They tell me the League of Nations is a good thing. Mrs. 'Arris." Second Charley—"Well, let's hope that they'll 'ave none o' them furiners in it!"—Punch.

An Ear Full. Dodd—"I notice that in telling about that fish you caught you vary the size for different listeners." Rold—"Yes, I never tell a man more than I think he will believe."

Thunder Showers Fertilize. Scientists say a thunder shower is an excellent fertilizer. Each quart of rain that falls in a thunderstorm contains about one-eightieth grain of ammonia.

Moslems Detest Bells. Bells are never used in Mohammedan mosques. The Moslem race detests bells, under the delusion that they cause the assemblage of evil spirits.

Diamond Jubilees. There are two diamond jubilees—one when you are married 75 years, and the other, later, when you get the last installment paid on the ring.

First Tea in Europe. When tea was first drunk in Europe nobody thought of mixing it with milk, though it was customary to serve it with sugar or sugar candy.

That's the Main Trick. Blackstone alone can teach you how to practice law, but many, many books are necessary to teach you how to

Many Women Executives. According to estimate more than 15,000 women in the United States fill positions as industrial superintendents and factory managers.

Love Diplomacy. And many a young man doesn't know that he is in love until the girl in the case hands him the information in a diplomatic way.

ARCH PRESERVER SHOES

WHY have foot annoyances when you can keep your feet active, comfortable and useful simply by securing the right kind of shoe? The Arch Preserver Shoe makes your feet a help instead of a hindrance. We have your favorite style, too. Let us show you.

CHARLEROI-----PA.

The Personal Side

Mrs. C. A. Fisher of Washington avenue was a recent visitor in Pittsburgh.

Dr. and Mrs. C. B. King of Sixth street are attending the Missionary Conference being held in Pittsburgh.

Mr. and Mrs. Thomas Brown and family arrived in CharleROI this week from the state of Illinois to make their future home here.

Mrs. Robert Coulter, Jr., of Washington avenue and Mrs. Hudson Isaac and daughter of Monongahela are visiting in Latrobe for several days.

Miss Mary Lehotsky of this place and Arofat P. Tehnsky of Watertown, New York, were issued a marriage license in Washington yesterday.

Mrs. Robert S. Coyle of McKean avenue and Mrs. George C. Petty of Crest avenue are spending the weekend with their aunt, Mrs. R. J. White of Sewickley.

Mrs. Dave Zeidman and son, Arthur and Garson, have returned to their home in Wheeling, W. Va., after an enjoyable two weeks' visit with Mrs. Zeidman's parents, Mr. and Mrs. C. A. Fisher of Washington avenue.

Harry N. Allen son of Mr. and Mrs. E. L. Allen of Latrobe and Weston H. Glette of Washington avenue, left this afternoon for a ten-day trip to Washington, D. C., Baltimore, Richmond, Virginia, Annapolis, Jamestown and other points of interest.

Mr. and Mrs. George T. Brown, son, Francis of Seventh street, Miss Clete Knapperberger of Crest avenue, Frank Bailey of Lookout avenue and Henry Brown of Vestaburg, motored to Brownsville Wednesday evening and attended a banquet given for the A. & P. store managers and employees of this district.

Mr. and Mrs. Clarence M. Velletay, returned to CharleROI yesterday to resume their home, having spent the last two years in Los Angeles, California. Mr. Velletay, a world war aviator, went to live in the West for the benefit of his health and returns to his home town feeling fine. For the present they will reside with Mrs. Velletay's parents, Mr. and Mrs. John Cavanaugh of Fallowfield avenue.

French Coffee.

French coffee is filtered or percolated coffee. The coffee is placed in a strainer, strainer in coffeepot, and put on a range. Add gradually boiling water and allow it to filter. Cover between additions of water. Turkish coffee is made of half pulverized coffee and half sugar. This is boiled together and served without cream. Allow the sediment to settle at the bottom of the cups before drinking.

Electricity Data.

Every year the families in homes where electric is used spend \$75,000,000 for electric current. By itself that looks almost as imposing as the expenditures for the famous three Cs—confectionery, cigarettes and cosmetics. Yet it averages only four cents a day for each person who uses electricity.

Apron Springs.

A woman who frequently went out to spend the day with friends had been accompanied by her six-year-old son. One evening on returning home very much bored with the day's experiences the boy remarked: "Mother, if you don't stop taking me around with you so much people will think you have married a dwarf."

Zero Women Woo Men.

The Zero women of India are supreme. They woo the men, control the affairs of the home and the nation, transmit property, and leave the men little or nothing to do. The result is, says an eminent scientist who has investigated the race, that they are the ugliest women on earth.

Willie Willis.

The mother of little Willie Willis discovered that her son had been permitting his pup to share his bed since the cold spell began. In order to save her pride she made him explain to the druggist what the powder would be used for.

Work Where You Are.

If you intend to go to work, there is no better place than right where you are: if you do not intend to go to work, you cannot get along anywhere. Squirming and crawling about from place to place can do no good.—Abraham Lincoln.

Worked Until He Was Ninety-Eight. The great Italian painter, Titian, continued to work until he was ninety-eight. His great masterpiece, "Venus," was one of the pictures that came from his hand at that age.

Balm of Gilead.

Balm of Gilead is a yellowish, aromatic gum, collected from certain Arabian and Abyssinian trees. It has always been valued in the East for its exceptional fragrance and supposed medicinal qualities.

If you want it, a Mail Classified Ad. will help you get it.

In Society's Realm

At the home of Mrs. William J. Sethman of 134 Fallowfield avenue the members of the Wednesday Evening 500 club met in their regular social session Wednesday evening with 10 members present. The game of 500 was the main division, Mrs. William Stopp and Mrs. J. J. Henrion, receiving the favors. At the close refreshments were served by the hostess.

Mrs. Mary Myers of Fallowfield avenue delightfully entertained the members of the sales force of Thomas P. Tweed company last evening at her home. A varied program of games and music was the chief entertainment feature of the evening and an enjoyable time was spent by the 15 guests present. The hostess served a delicious luncheon at the close of the evening.

The Leah Gelder Memorial Circle of the Washington Avenue Presbyterian church held its regular meeting last night in the church.

meeting was in charge of the president, Flora Roberts and plans were begun for the annual guest day meeting to be held in June. The lesson, "The Work, Play and Education of Childhood of America," was discussed by Alice Soupley and Eleanor Kinder. A pleasant social hour followed and luncheon was served by the hostesses, Ma Campbell and Alberta Henderson.

On Wednesday evening the members of the Get-To-Gether club met at the home of Mrs. Marlin Hallman of Meadow avenue with a good attendance. The evening was spent in playing cards, the favors being awarded to Mrs. Mathew Giordanengo, Mrs. Edward Stech and Mrs. Percy Rusher. At a late hour luncheon was served by the hostess assisted by Mrs. George B. Wagner which was enjoyed by all. In closing they decided to meet at the home of Mrs. William Newton of Lincoln avenue, May 21.

With 40 members present, an interesting meeting of the Ladies' Aid of the Washington Avenue Presbyterian church was held at the home of Mrs. Cary Piper, Fifth street last evening. Presided over by the president, Mrs. Harry Lowstuter, the devotional exercises opened the meeting followed by a short business meeting during which time the usual routine business matters were transacted. There followed a social hour and a dainty luncheon was served by the hostesses, Mrs. Piper, Mrs. G. B. Nelson, Mrs. Will Snyder, Mrs. John Dazell, Mrs. Ewing and Mrs. N. W. Patton.

Gold at Bottom of Sea.

It is estimated that a total of \$6,000,000,000 in gold went to the bottom of the seas during the four years of the World war, sent there by torpedoes and other disasters.

What They Think.

At the marriage altar they take each other for better or for worse. A little later he thinks it couldn't have been worse and she thinks she might have done better.

Man's Horsepower.

Compared with other motors, a laboring man has been rated by French investigators as having about one-seventh horsepower and an efficiency of 30 per cent.

Sin Not Against Own Soul.

Never let a man imagine that he can pursue a good end by evil means, without sinning against his own soul. The evil effect on himself is certain.—Southey.

Medieval Tiles Beautifully Made.

Tiles made in Cairo and Damascus in medieval times are of such beauty that squares of nine or sixteen are often sold for hundreds of dollars.

Old Mineral Records.

The earliest records of mineralogy are lists of minerals with descriptions that were compiled by Theophrastus four centuries before Christ.

Have Patience.

There are many dirty roads to be crossed in life, but with a little patience you will always be able to find a clean crossing.

Very Likely.

A girl seldom has occasion to cry for help when a young man kisses her—probably because he is able to help himself.

Woman and Her Secret.

A woman may be able to do her own housework, but she always has to get some other woman to help her keep a secret.

Timber in Mines.

The consumption of timber in the mines of the United States has practically doubled within the last twenty years.

Yams Not Sweet Potatoes.

True yams are entirely distinct from sweet potatoes and are much like the Irish potato in composition and food value.

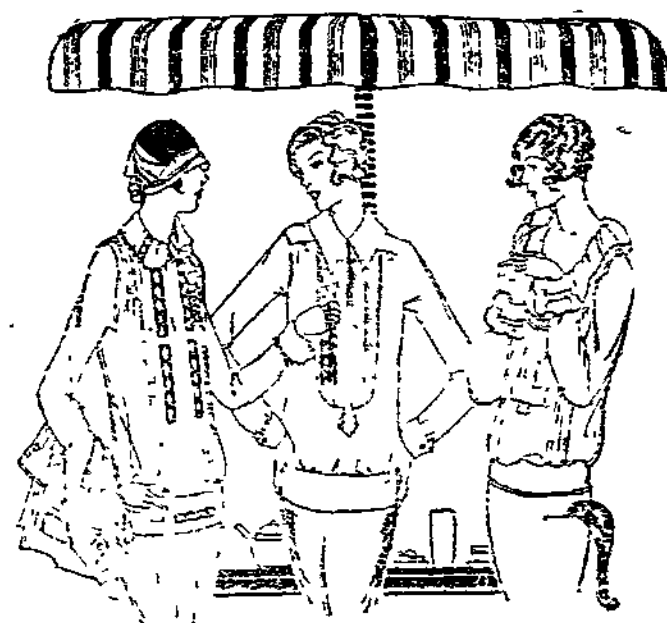

Be Humble Always.

Rightly do those teach who admonish us that we should be the more humble in proportion to our high rank.

Thos. P. Tweed Co.

The Mail Classified Columns Are Full of Opportunities

Fortune in Search

Spent \$1800 in 7 years treating physicians, some specialists cost me \$10 a visit, only to at last find out that nothing could be done for me. I had cancer or ulcers of the stomach, but after taking a few doses of Dr. Williams' Wonderful Remedy these disappeared and for 3 years am feeling fine. It is a simple, harmless preparation that removes the catarrh mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.

Care of Hides.

Only sound hides free from cuts on the flesh side will stand up, of regular even pattern, properly salted and cured, can command a high price and make good leather. Greater care must be taken in summer than in winter in salting, curing and marketing hides, especially by the farmer or the country butcher who has only an occasional hide to cure. Partly decayed hides are practically useless.

Made Bald by Collars.

A French hair specialist says that starched collars are the chief cause of men's baldness. Women are not bald at forty as men are because they do not wear tight or stiff collars that press on veins and blood-vessels and thus prevent healthy blood circulation.

Water Bags of Indian Army.

The water is carried in goatskin bags in the Indian army because the religion of the various soldiers interferes with the use of any other kind. The Mohammedans cannot drink from a bag made of pigskin, and the Hindus cannot drink from one of calfskin.

A Prisoner's Observation.

Bald-Headed Magistrate—"If half of what the witnesses have said against you is true, your conscience must be as black as your hair." Prisoner—"If you judge a man's conscience by his hair, you cannot have a conscience at all."

Standard fineness of all gold and silver coins is 900, but a variation of three one-thousandths is allowed for silver coins, while a deviation of but one one-thousandth for the gold coin is not permitted.

Needle of Death.

On the banks of the River of the Thames, is a monument 68 feet high, and weighing 15 tons, originally brought from Heliopolis and presented to the English government by Mohammed Ali.

Can't Depend on Uncle.

The youth who depends upon his thrift and industry, instead of upon some rich uncle who is likely to be vamped in his old age, is the boy who will get an early start toward success.

Handing the Boarder a Few.

Landlady—"You needn't polish your knife and fork so carefully, Mr. Snively. In the first place it isn't necessary, and then again you only dirty the napkin with it."

A Few Things B. F. Did.

To Benjamin Franklin is credited the establishment of the first circulating library in America, the invention of the bifocal eyeglass, and the lightning rod.

London's Buildings.

If all the houses and buildings in London were placed side by side in a long line, they would reach across the three great continents of Europe, Asia and America.

Use Sumac in Tanning.

American sumac, a shrub growing wild on uncultivated land in eastern and middle western states, is used in tanning light-colored and special leathers.

Isn't It the Truth?

Just when a fellow thinks the boss can't get along without him he gets sick and finds the place running in the same accustomed order upon his return.

Slaves Masters at Festival.

The Saturnalia was an old Italian harvest festival, during which the slaves dressed up in their masters' clothes, and were waited upon by them.

Airplanes in Alaska.

Airplane service in the interior of Alaska has cut the time to make the trip from Fairbanks to Livengood from 50 hours by trail to 50 minutes.

Freight Cars by Millions.

Rolling stock of all the railroads of the United States consists of 234,500 freight cars, 65,000 locomotives and 32,000 passenger cars.

None There.

Those who go into politics for the sake of the game and those who go in for the public welfare will never find common ground.

Sage Advice.

Many men seek fortune in order to be independent. They should rather seek character, the only true source of independence.

Pessimists and Optimists.

A pessimist is a man who in every opportunity sees a difficulty—an optimist, one who in every difficulty sees an opportunity.

Human Nature Unruly.

Human nature began a good many thousand years ago, and it is still unruly. Perhaps it ought to be, to be healthy.

First Meerschmum Pipe.

The first meerschmum pipe was made 200 years ago by a Hungarian shoemaker who was a clever wood-carver.

Sounds Like an Old Saw.

Nostrils, mouth and small teeth of the sawfish are on the under surface of the head near the base of the saw.

A few who would like greatness, do not wish it to be a bother to them; but it always is a bother.

Scientists Use Colors to Combat Insects

Men of science over Cambridge way in England put their heads together and then take out to announce to a poster world that mosquitoes favor navy blue above 10 other colors. Reporting further on the effect of colors, the scientists say that mosquitoes are unanimous in their aversion to yellow, and that they shun light blue almost to a mosquito. One observer says that house flies are indifferent to colors; another is positive that flies avoid pale blue and settle freely on white. A sense of color and a sense of smell are possessed by many kinds of insects, notably bees and butterflies, according to Darwin, Lubbock and other naturalists of the last century.

Just as we were dazzled with the idea of baffling the stings and arrows of outrageous insects by the trickiness of our apparel, or mayhap even ridding the earth of the busy holl weevil by some subtle lure, along comes the esteemed Engineering Foundation with a dissertation on combating mosquitoes by means of fishes, especially young ones. The most useful species for that service, so the announcement of the Foundation says, are the common sunfish, the mud minnow, and the killifish. Competition and struggle for existence in the mimic world. The minnow plays Goliath to the mosquito's David. Lay on Macintosh—and d-d be Goliath if he cries "Hold; Watch your fins, Mr. Killifish."

Guarding Our Animals

The vigilance of the United States Department of Agriculture was impressed upon Thomas A. Pife, of Mishawaka, Ind., when two deer shipped to him from Canada were recently held up in Detroit by a United States government veterinary inspector for the lack of a certificate from a Canadian official veterinarian. Government regulations covering such shipment require that the animals be accompanied by a certificate stating that the area from which they come is free from contagious diseases and has been so for a period of 60 days immediately preceding the importation. The certificate must be signed by a veterinarian of the Canadian government.

Predicted Power by Radio

Dr. C. P. Steinmetz, whose development of electrical science brought him to a place of eminence in the scientific world, said shortly before his death that those adults of today who lived to a ripe old age would see electric power transmitted by radio over a distance as far as from Chicago to Canton, China. He emphasized the word "power" and said much of the world's work would be done by radio when it was fully developed.

All the Same

Simkins considered himself a humorist. He sent a selection of his original jokes to the editor of a newspaper and confidently awaited a check. His excitement ran high when he received a letter, obviously from the newspaper office.

He opened it with feverish haste. There was no check, however, just a small note saying:

"Dear Sir—Your jokes received. Some we have seen before; some we have not seen yet."

Might Be Elsewhere

"I knew your daughter was keen on classical music, but that's a popular song she's singing, isn't it?"

"Not in this house," was the gloomy reply.

Travel Inducement

American—"I suppose your son's thirst after knowledge led him to travel in Europe this winter?"

Second American—"No; merely his thirst."

Birds Travel Far.

Nineteen species of shorebirds breed north of the Arctic circle, every one of which visits South America in winter.

The Cynic.

A cynic is a man who pretends to be tired of the world, but in reality he is a man of whom the world is tired.

Dreams.

Father is surprised when son saves part of his spending money and he dreams a dream of being the father of a millionaire.

Some Haven't Any.

This period of the earth's history will be known as that in which men's pocketbooks were the most inconveniently constructed.

Rainbows Common in Hawaii.

A rainbow is a very common sight in Hawaii. Hardly a day passes that this circle of color is not seen in the sky over Honolulu.

First Repeating Watch.

Gerrit Bramor was the first maker of the repeating watch, which he exhibited at the South Kensington (Eng.) museum about 1735.

One Kind of Sentinel.

Critics are sentinels in the grand army of letters, stationed at the corners of newspapers and reviewers, to challenge every new author.

Waste of Time.

It is a waste of time to be so short for the careless waste of time. —Victor Hugo.

Salt Relieves Fatigue.

Men who work in high temperatures often lose considerable weight from untimely respiration and perspiration. They also lose much salt. In England a series of experiments on workers in hot mines seems to show that a small quantity of salt taken daily relieves the men of much of their exhaustion. A drink based on a solution of about one-third of an ounce of salt to a gallon of water was most effective in warding off fatigue.

Slander and Libel.

Slander is oral defamation; that is, speaking false and malicious words concerning another, whereby injury results to his reputation. Libel is the false and malicious defamation of another expressed in writing, or in print, or by pictures or signs, tending to injure the reputation of an individual, and exposing him to public hatred, contempt or ridicule.

Tomb Used as Billiard Parlor.

It is unusual for a tomb to be used for any purpose other than that for which it was erected. An exception may be found in Allahabad, India, where a magnificent mausoleum, built to contain the remains of an Indian prince who was murdered by his father, has become in recent years a billiard parlor.

Acorn Alcohol.

Up to the present time no industrial use has been made of acorns, but recent experiments show that alcohol can be made from them. Shelled acorns contain about 40 per cent of starch, which can be readily saccharified and then converted into alcohol.

Twenty Miles Up.

The geological survey says that according to science there is an altitude at which water would not boil; however, no one has ever reached that point, as it is about twenty miles above sea level.

The Greater Admiration.

Father—"When I was a young man I worked 12 hours a day." Son—"I admire your youthful energy, dad, but I admire still more the mature wisdom which led you to stop it."

She Could Qualify.

"I'll marry a girl that can cook and make a home, and not one of those who can only play bridge." "Fine. Come over and meet our Polish housemaid." —Yale Record.

What She Said.

Allice—"Did you say 'This is so sudden' when Jack proposed to you?" Agnes—"No; I intended to, but I was so flustered that I forgot, and said 'At last' instead."

Johnny Was Well Taught.

Teacher (new style)—"If a man took two drives, one mid-air shot and two puts to make a hole, how many shots would that be?" Johnny—"Iad would call it four."

Watch Your Step.

"One big advantage in avoidin' bad company," said Uncle Eben, "is dat you don't have to watch yoh step so close to keep 'um bein' elevated."

Traveling by "Ant-Line."

In Australia there are ants which build their nests along a north and south line so accurately that a traveler may direct his course by their aid.

Long Railway Tunnel.

The longest railway tunnel in Great Britain is the Severn tunnel. It has a length of four miles, 620 yards, and took over 13 years to construct.

World More Liberal.

The world is getting more liberal, any way. In the old days heretics were placed on the rack, and now they are placed on the first page.

Feet Toward East.

In the old colonial burying grounds of New England the graves are so placed that the bodies lie with the feet toward the east.

Sure Proof.

If you wish to know whether he coaches the track team or has the chair of history look at his salary check. —Duluth Herald.

Wouldn't That Be Nice?

Nearly every "good conversationalist" thinks conversation ought to be a monologue, with an occasional "yes" by somebody else.

High Genius.

The power of separating the intellect from the senses, and reason from instinct, is characteristic of the highest genius.

He Had Been There.

Teacher—"What does the busy bee teach us, Charlie?" Charles—"Not to go too near the hive." —Philadelphia Bulletin.

First Can Opener.

The first can opener, made necessary by the growth of the canning industry, brought its inventor a large fortune.

Human Nature.

Good human nature responds to good human nature and quite often bad human nature responds to it, too.

Woman.

A woman moved is like a fountain, troubled, muddy, ill-smelling, thick, bereft of beauty. —Shakespeare.

What Flattens 'Em.

It is a whole woe of it that flattens them.

Mask Guards Painter From Lead Poisoning

Lead poisoning has long been the bugbear of painters. While working with paint having a high lead content the inhalation of the paint odors has been known to produce dangerous attacks of the well-known "painter's colic," while contact of lead paint with the skin, particularly where it is cut or abraded, often results in irritating diseases.

To combat these conditions a special gas mask or respirator has been devised. This is not so cumbersome as the conventional type, merely serving as a filter against the lead fumes and not covering the whole face. It straps around the back of the head, covering the nose and mouth, but not the eyes, thus affording free vision.

Worn in combination with rubber gloves for protecting the hands, the new respirator affords ample protection against the possibility of contracting disease, no matter what may be the lead content of the paint used.—New York World.

Human Decoy Used to Lure Wolf in Russia

The Russian hunter's method of killing wolves is interesting. A great hefty peasant, with yellow hair, snub nose, red face and shining blue eyes brought an immense wolf's skin to me once, and I asked him how he had obtained it. He was standing at the window of his izba one late afternoon he said, when he saw a wolf walking through the village street. He seized his gun, called a friend, and they went in pursuit. The wolf stopped on the top of a hill outside the village and looked at them. To prevent it from running away, the second man went down on all fours and moved toward the wolf. He looked in his heavy sheepskin shuba, for all the world like an animal, and the wolf ran back to attack him. When it had come to a convenient distance the hunter shot it.—Francesca M. Wilson, in Manchester Guardian.

Strange, Strange!

This is veracious: A clergyman from Cambridge, Mass., had occasion to preach to the inmates of an insane hospital. During his sermon he noticed that one of the patients paid the closest attention, his eyes riveted upon the preacher's face, his body bent eagerly forward. Such interest was most flattering. After the service, the speaker noticed that the man spoke to the superintendent, so as soon as possible the preacher inquired:

"Didn't that man speak to you about my sermon?"

"Yes."

"Would you mind telling me what he said?"

The superintendent tried to sidestep, but the preacher insisted.

"Well," he said at last, "what the man said was, 'Just think, he's out and I'm in.'"—The Christian Register (Boston).

Rans Submerged

An inexpensive undershot power wheel which will run even when wholly submerged and which is especially adapted for use in mountain streams was invented some time ago by a Salt Lake man. The wheel's source of power lies in the fact that the blades fold on the upward stroke, making the leverage greater at all times on those below than above the center shaft and thereby enabling it to run in water of any depth. The wheel, which is made entirely of metal, may be of any diameter and width.

To prevent clogging with floating weeds or debris the wheel is inclosed in a heavy mesh wire screen so connected to the wheel that it revolves in the opposite direction.

Set an Egg—Ample

A boastful traveler was in the village inn, trying to "kid the hicks." "Speaking of chickens," he said, "reminds me of an old hen my father used to have on his farm. She'd hatch anything from a tennis ball to a lemon. Why, one day she set on a chunk of ice and hatched out a pint of hot water!" "That don't come up to a hen my mother had," remarked one of his hearers. "They fed her on sawdust once, by mistake. Well, she laid ten eggs, and sat on 'em, and when they were hatched, nine of them had wooden legs, and t'other chicken was a woodpecker!"—American Boy.

Giant Waterspout Recorded.

A Washington scientist has recorded the particulars concerning a great waterspout he observed south of Cape Comrin on a day when the weather was fine and the sea smooth, says the Washington Star. The waterspout formed between a russet-gray cloud and the sea nearly five miles from the ship. At first the distance between the base of the cloud and the surface of the sea was 4,600 feet and the width of the column tapered from 500 feet at its juncture with the cloud to 150 feet at the sea. The vortex appeared to be a tube with tapering sides and a central column. The walls seemed to consist of water moving downward and the central column of water ascending. The phenomenon lasted for 13 minutes. The walls broke and the central column appeared to ascend into the cloud.

Origin of Angora Cat.

The Angora cat came originally from Angora and has a small head and rather large tufted ears; the long silky hair should hang in tufts and clusters, shortening toward the end of the tail. The colors are varied, but black and dark slate colored ones with orange eyes, or blues and white with light eyes, are most valued. The Persian is also long haired, but is larger in body and the fur is coarser and increases toward the end of the long tail. The color may be almost any, but deep black with orange eyes is preferable; blue is the next best color.

CLASS OF 28 AT WEST BROWNSVILLE

The fourth annual commencement of the West Brownsville Public schools was held in the Christian Alliance church of that place last night, and was largely attended. The program was opened with prayer by Rev. D. P. Scherrer, which was followed by "America," sung by the class and audience. Miss Marie Elliott capably delivered the salutatory. Superintendent H. D. Freeland, of the Greene County public schools, delivered the principal address of the evening.

A recessional by Vivian Jeffries and an oration, "Plain Bob" by John Gladden were well received. "When the Minister Comes" was delivered by Duane Cerry and "Better Than Gold" by Inez League. McClure Donahue played a violin solo and the "Psalm of Life" was given by Bertha Scott. "Guilty or Not Guilty" was the subject of an oration given by Carrie McClellan. Solos given by Erman

lores Claybaugh, were all well received.

Well delivered orations were given by Ruby Hess, Violet Acton, Thomas Smith and Smith Coldren. "Shepherd of King Aemetus," by Beatrice Brown, pleased the audience. "Close of School," by Helen Stephenson and "Somebody's Mother," by Louise Bakewell, were both pleasing parts of the program. "Graduation" was well delivered by Celestine Murphy.

Without an exception the entire class graduated. The members of the class are as follows: Marie Elliott, John Gladden, Edward Baird, Lawrence Boehr, Louise Bakewell, Thomas Smith, Duane Cerry, McClure Donahue, Julia Bazy, Smith Coldren, Inez League, Carrie McClellan, Celestine Murphy, Julian Levinson, Helen Stephenson, Bertha Scott, Dolores Claybaugh, Vivian Jeffries, Inez Gregg, Helen Turner, Elizabeth Yelink, Beatrice Brown, George Hill, Ruby Hess, Violet Acton, Mildred Yarnevich, Francis Mark, Sylvia McDonald. Music was furnished by the South Brownsville High school orchestra.

SALT DRINK FOR HOT CLIMATE

Experiments on Miners indicate Diluted Sea Water Keeps Them Stronger and Fitter.

Dilute sea water or salt water in any palatable form may be the basis of future sort drinks for hot weather and tropical climates, says a London dispatch to the New York Evening Post. A long series of experiments on workers in hot mines has shown that a small quantity of salt daily has the power to relieve the men of much of the exhaustion supposed to be due to severe toil at high temperatures, and to prevent altogether the development of the miners' camp. Men given about one-third of an ounce of common salt dissolved in a gallon of water reported themselves stronger and fitter every day.

Measurements taken by Prof. K. Neville Ross of Birmingham university showed that during a five and one-half hour working shift at a temperature around 100 degrees, the men lost from nine to eighteen pounds through perspiration and respiration. Other men who worked in a specially heated testing room in a laboratory showed similar losses and a loss of twice as much salt from the system as under normal conditions. He also discovered that men who worked in hot mines ate a third more salt food than those who worked under normal conditions.

The basis of reckoning standard time at the United States Naval Observatory is least observation of the stars. The observatory has three standard clocks running in a constant temperature vault, electrically wound and sealed to keep the air pressure constant. Meridian circle observations of selected stars are taken regularly on clear nights and from these observations the errors of the standard clocks are determined and corrected.

Albino Tree.
Albino rats and albino people are more or less familiar to everybody. Out in the Missouri botanical garden, however, there was recently an albino California redwood tree. It was grown in a bowl from a piece of redwood bark. Shoots and leaves sprang from this bark were perfectly white. Roots did not develop and the shoot died but the mystery is not yet solved as to why the green color pigment of the normal redwood was lacking.

Gateway to Sahara.
Tripoli, now under Italian rule, is called the "Gateway to the Sahara," and the caravan trade to and from the city through the desert is enormous. All goods are transported by baggage camels, called in Tripoli animals, ivory tusks, carpets, gum arabic, cloth from the Kaou dye pits, rhino horns, leather, etc., are brought in in great quantities from various parts of central Africa. The Sahara is peopled by several very fierce tribes called Tuaregs, who levy on the caravans enormous taxes as tribute for their safe conduct through the desert. Nor does this always suffice; more times than are pleasant the caravans are raided, the personnel killed or captured, and

SIX LIVES FOR ONE IN LOUISIANA

Amite, La., May 9.—Modern law demanded six lives for one here today.

As crowds of men jammed streets of Amite, leading from the jail, six Italians sentenced to be hanged for the murder of Dallas Calmes, were made ready for the death march.

Although the executions were not to start until noon and only a few may witness the actual hangings, crowds began gathering during the night as near the jail as guards permitted. Some spectators slept in automobiles or rolled in blankets on the ground.

Many of the curious were from Independence, where Calmes was shot and killed during an attempted bank robbery three years ago. They were on hand to see that justice is done in case by some last minute technicality or official leniency, the prisoners should not be executed legally. Most of those from Independence and other points in Tangipahoa Parish were of French descent.

Mingled with them were countrymen of the prisoners, friends and relatives—who hoped by some means some way might be found before the hour set for the executions of saving the prisoners' lives. No attempt was made to hide bitter feeling between the two groups.

Meg of Muckle Mouth.
It is said that Sir Gideon Murray of Elbank, Scotland, took prisoner a young gentleman named Scott, whom he was about to hang, but his wife persuaded him to commute the sentence into marriage with their daughter, "Meg of the Muckle Mouth." The young man hesitated for some time but finally preferred marriage to death. Strangely enough the match turned out very happily.

Values of Mastication.
A good way to form the habit of thorough mastication is to eat each meal with a small quantity of very dry food. In most cases mastication is a help to digestion. The dry circumstances under which it is not advisable to prolong the mastication are where there is an excess of the digestive fluids in the stomach, where there is pain after eating solid foods.

The Jovial Man.
A "jovial" character once meant the type supposed to belong to all persons who were born with the planet Jupiter was in the ascendant. They were supposed to possess more of the cheerful elements of character than others, and hence to partake of the better qualities attributed to the "father of the gods."

Cost of the War.
Attempts have been made by a number of statisticians and economists to compute the money cost of the world war. The results arrived at vary. According to the estimates of Professor Hecatt, under the auspices of the Carnegie Endowment for International Peace, the direct costs were \$150,000,000,000, and the indirect costs \$150,000,000,000, making a grand total of \$300,000,000,000.

How Bees Keep Warm.
Honeybees turn on the heat in their apartment houses at 57 degrees Fahrenheit. When it gets that cold, they form a compact spherical cluster. Bees on the inside of the ball become active and walk, wiggle and beat their wings to generate heat. The outer shell of the cluster is made up of bees that cuddle close and stay still. They furnish the insulation which prevents the escape of heat so effectively that there may be 75 degrees difference between the inside and the outside, only 4 1/2 inches away. Thousands of dollars are lost to American beekeepers every year, however, by bees working themselves to death by keeping warm this way.

Tomb of the Viking Queen.
What is believed to be the tomb of a Viking queen has been unearthed in southern Norway. The burial chamber was found supplied with a complete equipment for that future life anticipated by northern paganism, including a furnished kitchen, beds and looms.

Congress Grants Vacations.
In April, 1916, congress granted a thirty-day vacation with pay to every employee, both shop and office, of the arsenals or the United States government who had served twelve consecutive months, and this has become the standard vacation for all government employees.

Bacteria Develop Rapidly.
An unsterilized milk can yielded 16,000,000 bacteria at the first rinsing in the United States Department of Agriculture laboratory.

Castes in India.
There are four great castes in India. They are: The Brahmins, or priests; the military caste; the vaishya, or husbandmen, consisting of most of the industrial workers, and, finally, the serfs, who till the soil.

FOR SALE—Horse. Inquire Riva Farm, Maple Creek. 284t6p

Formation of Coal.
The general theory regarding the formation of coal is that it results from the decomposition of vegetation in swamps under tremendous pressure at a high temperature. The first stage is peat; second, lignite; third, bituminous; fourth, anthracite; and the final stage is graphite from which pencils are made.

Things Pope Bans.
Women visitors to the pope must wear dresses which reach to the wrists, ankles and chin, white gloves, "male-up" such as powder and rouge, and all rings, save wedding and engagement rings are placed under the ban.

Little, but Great Jumper.
The jerboa, or Egyptian jumping mouse, whose habitat is the Sudan desert, is the smallest of all leaping mammals. It has extraordinarily long hind legs, a lengthy tail which acts as a rudder, and it can jump ten times its own length.

Coming and Going.
First Freshman (putting up pictures)—"I can't find a single pin. Where do they all go?" Second Freshman—"It's hard to tell, because they're pointed in one direction and headed in another."

Only Centenarian Bride.
The only centenarian bride of which actual record exists was Margaret Subburie, who was one hundred years old at the time of her marriage to Thomas Bellanue, on November 20, 1808, in the town of Claypole, England.
